The purpose of this regulation is also to minimize guests’ exposure to unsafe conditions or circumstances that may cause physical injury.

1.2. This regulation applies uniformly to the repair, maintenance, use, operation, and occupancy of all new and existing Public Pools designed, intended for use, or used for human occupation, irrespective of when or under what laws such Public Pools were originally constructed or rehabilitated.

6.2. Authority for Department to Enter Premises.

6.2.1. Regulated Commercial Premises. Upon presenting proper identification, authorized representatives of the Department may enter upon the premises of properties regulated by the Department to perform routine inspections to ensure compliance with rules, standards, regulations, and ordinances adopted by the Department, the Departments of Health & Environmental Quality, county or municipal governing bodies, or the division of Occupational and Professional Licensing.

6.2.2. Consent by License or Permit. The Department may require licensees or permittees to consent to access for inspections as part of their license or permit. Failure to allow access for inspections as set out in the license or permit may result in the suspension or revocation of the license or permit.

6.3. The owner or other responsible person may request information gathered by the Department during an investigation, inspection or review as authorized by the Government Records Access and Management Act, §§ 63-2-101 to 63-2-1001 Utah Code Ann., 1953 as amended.
7. **ENFORCEMENT MECHANISMS.** If the Department has investigated or inspected any Public Pool and believes the property owner or other responsible party is in violation of this regulation or the Department has other reasonable grounds to believe that there has been a violation of any part of this regulation or that the property owner or otherwise responsible party is not in compliance with this regulation, the Department may take civil enforcement action as authorized by statute, rule, ordinance, and regulation and may also refer the matter for criminal prosecution. Civil enforcement may involve court or administrative actions, injunctive actions, and closures and may involve cost recovery, penalties, and other remedies. Civil and criminal actions may be brought simultaneously. A person does not need to be first adjudged liable in a civil matter before facing criminal charges.

7.1. Criminal Enforcement Actions. The Department may recommend criminal prosecution for environmental violations either alone or in conjunction with civil enforcement. Criminal prosecutions for environmental violations of state or federal law may be filed by the County Attorney, Utah Attorney General, United States Department of Justice, or other enforcement entity. Factors that the Department may consider in recommending criminal enforcement include the following factors and any other relevant factors.

7.1.1. The nature and seriousness of the offense including the immediacy of the threat of danger to the life or safety of another or the harm or threatened harm to human health or environment;

7.1.2. The degree to which the violation was designed to provide economic gain or cost avoidance or it involved a pattern of conduct or a common attitude of illegal conduct;

7.1.3. The degree to which the offender is a known violator and has avoided prior actions by the department;

7.1.4. The degree to which prosecution might deter future violations;

7.1.5. The person’s actual culpability in connection with the offense including the presence in connection with the offense including the presence of criminal intent;

7.1.6. The person’s willingness to cooperate in the investigation including whether the violator has attempted to conceal evidence or prosecution of others;

7.1.7. The appropriateness of referring the case to other agencies having prosecutorial interest; and

7.1.8. Possibilities of civil remedies which would be more appropriate than initiating the criminal justice process.

7.2. Civil Enforcement Actions. The Department may request that the County Attorney bring an action to restrain or enjoin actions in violation of public health, environmental laws, and other laws or abate conditions in violation of such laws.

7.3. Administrative Actions – Notice of Violation (NOV).
7.3.1. If the Director has inspected any Public Pool and has found and determined that it is in violation of this regulation or has reasonable grounds to believe that there has been a violation of any part of this regulation, he shall give notice of the violations to the owner or other responsible person thereof.

7.3.2. Service of NOV. The Department may provide notice to the owner of the property or otherwise responsible person by sending the NOV via first class mail to the last known address of the owner of the property or other responsible person. If notice is returned undeliverable, the owner of the property or other responsible person may be personally served or be given notice by other methods reasonably calculated to give actual notice to the owner or other responsible party.

7.3.3. Contents of NOV. The NOV shall:

(i) Describe the property and the persons believed to be in violation; (ii) Describe the violation;

(iii) Describe remedial action that will comply with the provisions of this regulation;

(iv) Set a reasonable time for the performance of any required remedial action(s);

(v) Describe the procedure to contest the NOV and the time limits for such a contest; and

(vi) Notify the owner or other responsible person that if no written contest is filed within the time required, the NOV will become final and unappealable to any administrative entity or court.

7.3.4. Challenging an NOV. As detailed in the Department’s Adjudicative Hearing Procedures, a party aggrieved by an NOV may request a departmental conference, departmental hearing, or departmental appeal in writing within ten (10) days of the date of the NOV.

7.3.5. Departmental Conference, Settlement Agreements, and Stipulations & Orders.

(i) After issuance of the NOV, the alleged violator has the option to request and attend a Departmental Conference to discuss the NOV and settlement with the Department. No hearing officer will be present. The process of requesting a Departmental Conference are more fully described in the Department Adjudicative Hearing Procedures.

(ii) If the parties agree to a settlement, the Department will prepare, in conjunction with the County Attorney’s Office, a binding Settlement Agreement or Stipulation & Consent Order which may require the
payment of penalties and the costs of investigation. Parties may also agree to a settlement at any time subsequent to the Departmental Conference. After signing a Settlement Agreement or Stipulation & Consent Decree, the parties waive all rights to further Department and court hearings or appeals. Settlement Agreements or Stipulation & Consent orders may be enforced in state courts.

7.3.6. Hearings & Appeals. Parties aggrieved by an NOV may also request a Departmental Hearing or a Departmental Appeal. A hearing officer is present at these proceedings and makes a written determination. The methods of challenging an NOV are more fully described in the Department’s Adjudicative Hearing Procedures. Departmental Hearing Orders and Departmental Appeal Orders may be appealed to the entities and within the time limits set out in the SLVHD’s Adjudicatory Hearing Procedures.

7.3.7. Failing to respond to an NOV. If a party fails to respond to an NOV within the required time, the NOV becomes a final order unappealable to any administrative entity or court. The Department may then enforce the order in state court.

7.4. Additional Administrative Enforcement Authority.

7.4.1. The Department may declare unsanitary conditions a nuisance and cause every nuisance affecting the public health to be abated.

7.4.2. Any variances allowed by the Department to the requirements of this regulation shall be only by written approval of the Board.

7.4.3. Exercise of Physical Control. The Department may establish, maintain, and exercise physical control over property and over individuals as the Department finds necessary for the protection of the public health including but not limited to closing theaters, schools, and other public or private places and prohibit public gatherings. The order shall be effective immediately. Any person to whom the order is directed shall comply immediately but may petition the Director for a hearing in accordance with the Department’s Adjudicative Hearing Procedures. After the hearing and depending upon the findings as to whether the person has complied with the provisions of this regulation, the Director shall continue the order in effect or modify or revoke it.

7.4.4. Emergency Enforcement. If the Director finds that an emergency exists that requires immediate action to protect the public health, he or she may without notice or hearing issue an order declaring the existence of an emergency and requiring that action be taken as he deems necessary to meet the emergency. The order shall be effective immediately. Any person to whom the order is directed shall comply and abate the nuisance immediately; but may petition the Director for a hearing in accordance with the Department’s Adjudicative Hearing Procedures. After the hearing and depending upon the findings as to whether the person has complied with the provisions of this regulation, the Director shall continue the order in effect or
modify or revoke it. If circumstances warrant because of the seriousness of the hazard, the Department may act to correct or abate the emergency without issuance of an order or directive or without waiting for the expiration of compliance time previously given in an order.

8.1.2. Each similar subsequent violation occurring within two years of the initial violation may constitute a class A misdemeanor.

8.1.3. Each day such violation is committed or permitted to continue shall constitute a separate violation.

8.2. Civil & Administrative Penalties.

8.2.1. Penalties may be included in a Settlement Agreement or Stipulation & Consent Order. Penalties may be assessed according to the following factors:

(i) The violator’s history of compliance or non-compliance;
