Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

This is an addendum to Utah Leads Together 2.0. The Governor’s Office of Management and Budget and the Utah Department of Health, with assistance from Leavitt Partners, have developed recommendations to support the roadmap for reactivation of the Utah economy while stabilizing public health.

### High Risk

- General public and employers take extreme precautions.
- Face coverings worn in public settings where other social distancing measures are difficult to maintain.
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds.
  - Use hand sanitizer frequently.
  - Avoid touching your face.
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands).
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces).
  - Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department.
- Do not shake hands.
- In-person interactions limited to individual households; Interactions in groups of 10 or fewer.
- Increase virtual interactions.
- Leave home infrequently; stay 6 feet away from others when outside the home.
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces).
- Give sick family members their own room if possible and keep the door closed.
- Have only one family member care for the sick individual.
- Schools closed.
- Employees and volunteers of businesses operate remotely, unless not possible.
- Employers evaluate workforce strategy, concerns, and enact strategies to minimize economic impact.

### Moderate Risk

- General public and employers take extreme precautions.
- Face coverings worn in public settings where other social distancing measures are difficult to maintain.
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds.
  - Use hand sanitizer frequently.
  - Avoid touching your face.
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands).
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces).
  - Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department.
- Do not shake hands.
- In-person interactions limited to individual households; Interactions in groups of 20 or fewer.
- Increase virtual interactions.
- Leave home infrequently; stay 6 feet away from others when outside the home.
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces).
- Give sick family members their own room if possible and keep the door closed.
- Have only one family member care for the sick individual.
- Schools closed.
- Employees and volunteers of businesses operate remotely, unless not possible.

### Low Risk

- General public and employers take reasonable precautions.
- Face coverings worn in public settings where other social distancing measures are difficult to maintain.
- Follow strict hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds.
  - Use hand sanitizer frequently.
  - Avoid touching your face.
  - Cover coughs or sneezes (e.g. into a tissue, sleeve, or elbow; not hands).
  - Regularly clean high-touch surfaces (e.g. door handles, counters, light switches, remote controls, restroom surfaces).
  - Follow any other standards promulgated by the Centers for Disease Control and Prevention (CDC), the Utah Department of Health, and local health department.
- Do not shake hands.
- In-person interactions limited to decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups of 50 or fewer.
- Increase virtual interactions.
- Leave home infrequently; stay 6 feet away from others when outside the home.
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, countertops, handrails, shopping carts, check-out counters, restroom surfaces).
- Give sick family members their own room if possible and keep the door closed.
- Have only one family member care for the sick individual.
- Schools open.
- All businesses operating.
- Employers exercise discretion with remote work and returning to onsite work.

### New Normal Risk

- General public and employers take reasonable precautions.
- All businesses operating.
- Schools are open.
- Traveling restrictions mostly lifted, self-monitor symptoms 14 days upon return; avoid areas of high transmission.
- Regularly disinfect high-touch areas (e.g. door handles, buttons/switches, handrails, shopping carts, check-out counters, restroom surfaces).

**Overview of Guidelines to Maximize Public Health and Economic Reactivation**

- **Phased Guidelines for the General Public and Businesses**
### Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

**High Risk**
- Encourage high-contact businesses not to operate
- Symptom checking in public and business interactions (checklist or verbal symptom checking)
- Design spaces to maintain 6-foot distance between individuals
- Limit travel to essential travel only; quarantine 14 days upon return from high-risk areas (this quarantine protocol does not apply to an individual who travels out of state pursuant to the individual’s regular and ordinary duties as an employee of a transportation business or entity)

**Moderate Risk**
- Employers evaluate workforce strategy, concerns, and enact strategies to minimize economic impact
- High-contact businesses can operate under strict protocols
- Restaurants are open for dine-in services with strict requirements
- Symptom checking in public and business interactions (checklist or verbal symptom checking)
- Design spaces to maintain 6-foot distance between individuals
- Limit out-of-state travel, quarantine 14 days upon return from high-risk areas (this quarantine protocol does not apply to an individual who travels out of state pursuant to the individual’s regular and ordinary duties as an employee of a transportation business or entity)

**Low Risk**
- Symptom checking in public and business interactions (checklist or verbal symptom checking)
- Design spaces to maintain 6-foot distance between individuals
- Limit out-of-state travel, quarantine 14 days upon return from high-risk areas (this quarantine protocol does not apply to an individual who travels out of state pursuant to the individual’s regular and ordinary duties as an employee of a transportation business or entity)

**New Normal Risk**

---

2 Essential travel means to: safely relocate by an individual whose home or residence is unsafe, including individuals who have suffered or are at risk of domestic violence, or for whom the safety, sanitation or essential operations of the home or residence cannot be maintained; care for a family member or friend in the same household or another household, including transporting family members or friends; transport a child according to existing parenting time schedules or other visitation schedules pertaining to a child in need of protective services; care for pets, including travel to a veterinarian; seek emergency services; obtain medications and medical services; donate blood; obtain food, including delivery or carry-out services, beverages (alcoholic and non-alcoholic), and other grocery items, gasoline, supplies required to work from home, and products needed to maintain the safety, sanitation, and essential operation of homes and residences, businesses, and personally owned vehicles, including automobiles and bicycles; perform work if you cannot telework; transport/deliver essential goods; engage in recreational and outdoor activities; laundromats and dry cleaners; return to a home or place of residence

# Tiered Guidelines for High-Risk Individuals

High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease.

**Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation**
### Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

#### High Risk
- activities (e.g., walking, hiking, running, bicycling, hunting, fishing, etc.)
  - Do not touch high-touch surfaces, including handrails, trail signs, maps
  - Do not congregate at trailheads, parks, or other outdoor spaces
  - Do not engage in close-contact or team sports
  - Do not travel to, or participate in activities at, any of the following locations:
    - places of public amusement or public activity
    - public swimming pools
    - gyms, and fitness centers
  - Do not go to or engage in activities at a state park located outside the county in which you reside (the availability of national parks will be determined in consultation with the National Park Service and the county in which the park is located)

### Moderate Risk
- activities (e.g., walking, hiking, running, bicycling, hunting, fishing, etc.)
  - Do not touch high-touch surfaces, including handrails, trail signs, maps
  - Do not congregate at trailheads, parks, or other outdoor spaces
  - Do not engage in close-contact or team sports
  - Follow guidelines for state and national parks

### Low Risk
- activities (e.g., walking, hiking, running, bicycling, hunting, fishing, etc.)
  - Avoid contact with high-touch surfaces, including handrails, trail signs, maps
  - Do not congregate at trailheads, parks, or other outdoor spaces
  - Distribution of promotional items, candy, food items, etc. during parades or spectator sporting events must be distributed in a manner that does not promote congregating
  - Participants (e.g., players, performers, actors) should have their symptoms checked
  - Follow guidelines for state and national parks
  - Recreation camps may operate in accordance with existing policy and health guidelines
  - Recreational vehicle parks may operate in accordance with existing policy and health guidelines
  - Roadway rest areas may open and operate in accordance with existing policy and health guidelines
  - Exhibit caution when engaging in close-contact or team sports, including symptom checking of participants prior to each competition or practice
  - Limit spectators so social distancing guidelines can be adhered to

### New Normal Risk
- pools, water parks, spas
  - Follow all social guidelines outlined on page 5
  - Pools are closed
  - Pools are limited to lap swim only, one swimmer per lane; no congregating on pool decks
  - Swim team is allowed as long as social distancing is allowed on pool deck
  - Symptom screening
  - Maintain signage that encourages social distancing guidelines to be met at all times

- church services
  - Follow all social guidelines outlined on page 5
  - Recommend streamed services to households
  - Spacing between immediate household groups
  - Alternate schedules to accommodate smaller gatherings where social distancing guidelines can be adhered to
  - Recommend streamed services to households

- pools, water parks, spas
  - Follow all social guidelines outlined on page 5
  - Pools are opened at a capacity that enables 6’ social distance to be maintained at all times
  - 6’ social distancing is maintained on pool deck and in pools
  - Lap swimming resumes to normal capacity
  - Swim team and swim lessons are allowed as long as social distancing is allowed on pool deck
  - Maintain signage that encourages social distancing guidelines to be met at all times

- church services
  - Follow all social guidelines outlined on page 5
  - Resume normal services

- pools, water parks, spas
  - Follow all social guidelines outlined on page 5
  - Resume normal operations

- church services
  - Follow all social guidelines outlined on page 5
  - Resume normal services

- Assign an employee to disinfect carts and baskets after each use | - Follow all employer guidelines outlined on page 7  
- Face coverings are worn for interactions that take place within a 6-foot distance  
- Maintain signage to remind and help individuals stand at least 6 feet apart, including in store check-out lines  
- Assign an employee to disinfect carts and baskets regularly | - Follow all employer guidelines outlined on page 7  
- Signage to encourage customers to use cleaning wipes and hand sanitizer  
- Ensure cleaning wipes are near shopping carts and shopping baskets  
- Provide hand sanitizer at checkout counters and entrance/exit |

---

3 Dine-in services not recommended during moderate risk conditions. However, if dine-in services are opened, the following precautions should be taken.  
4 Face coverings are extremely important in the retail setting, as customers are passing one another with high frequency.

## Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

### High Risk

- Maintain signage to remind groups to stand at least 6 feet apart and avoid congregating in common areas.
- Gift shops continue to sell food, medicine, or other essential items.
- Digital check-in and checkout encouraged.
- Consider installing plexiglass partition in areas coming into close contact with guests (e.g., registration, concierge, valet desks).
- Symptomatic guests should stay in their room and wear a face covering anytime they leave the room.
- Consider designating one staff member to attend to sick guests.
- Guest room cleaning should include a complete change of towels, linens, bedding, and guest consumable items while all hard surfaces and high-touch areas are completely disinfected with an EPA-registered chemical disinfectant.
- When possible, rooms should remain vacant for 48 hours after check-out and prior to cleaning.
- Launder all exposed linens and cleaning supplies separately.
- Food should be served in a take-out-style (grab and go) manner; no buffet-style dining.
- Swimming pools, gyms and fitness centers closed.
- Provide guests with their own sanitation solutions or wipes to instill guest confidence (e.g., alcohol wipes for remote controls or shared surfaces).

### Moderate Risk

- Maintain signage to remind groups to stand at least 6 feet apart and avoid congregating in common areas.
- Social distancing maintained in all common areas or meeting rooms.
- Digital check-in and checkout encouraged.
- Consider installing plexiglass partition in areas coming into close contact with guests (e.g., registration, concierge, valet desks).
- Symptomatic guests should stay in their room and wear a face covering anytime they leave the room.
- Consider designating one staff member to attend to sick guests.
- Discontinue or decrease housekeeping services to prevent transmission between rooms during guest stays.
- Guest room cleaning should include a complete change of towels, linens, bedding, and guest consumable items while all hard surfaces and high-touch areas are completely disinfected with an EPA-registered chemical disinfectant.
- When possible, rooms should remain vacant for 48 hours after check-out and prior to cleaning.
- Launder all exposed linens and cleaning supplies separately.
- Swimming pools, gyms and fitness centers closed.
- Provide guests with their own sanitation solutions or wipes to instill guest confidence (e.g., alcohol wipes for remote controls or shared surfaces).
- Pools follow guidelines on page 6.
- Fitness centers follow guidelines on page 12.
- Restaurants follow guidelines on page 16.

### Low Risk

- Maintain signage to remind groups to stand at least 6 feet apart and avoid congregating in common areas.
- Social distancing maintained in all common areas or essential items.
- Digital check-in and checkout encouraged.
- Symptomatic guests should stay in their room and wear a face covering anytime they leave the room.
- Consider designating one staff member to attend to sick guests.
- Launder all exposed linens and cleaning supplies separately.
- Pools follow guidelines on page 6.
- Fitness centers follow guidelines on page 12.
- Restaurants follow guidelines on page 16.

---

**Events, Cultural Arts & Entertainment (Including Sporting Events, Concerts, Rodeos, Convention Centers, Theatres, Museums, Zoos, Aquariums, Aviaries, Botanical Gardens, Libraries, Indoor Arenas)**

In-person operation of this industry is allowable under increased cleaning regimen and operational protocols in place to ensure safe distancing restrictions are met.

- Follow all employer guidelines outlined on page 7.
- Spectators encouraged to attend remotely.
- A 10-foot distance must be maintained between individual household groups at all times while seated.
- For reserved-seating facilities, facility capacity is dependent on ability to block reserved seats (demonstrated on digital seat map) to ensure safe radius.

In-person operation of this industry is allowable under increased cleaning regimen and operational protocols in place to ensure safe distancing restrictions are met.

- Follow all employer guidelines outlined on page 7.
- A 6-foot distance must be maintained between each household groups at all times while seated.
- For reserved-seating facilities, facility capacity is dependent on ability to block reserved seats (demonstrated on digital seat map) to ensure safe radius.

In-person operation of this industry is allowable for large groups. Mass gatherings follow proper safety procedures and precautions for monitoring symptoms.
### Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

#### High Risk

- Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
- Limit the number of people in a confined area to enable adequate distancing at all times
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g., museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked
- Electronic tickets and playbills encouraged in place of paper

#### Moderate Risk

- Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
- Limit the number of people in a confined area to enable adequate distancing at all times
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g., museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked
- Electronic tickets and playbills encouraged in place of paper

**Concessions:**
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

#### Low Risk

- Set an established window time for high-risk groups to come in without pressure from crowds and/or separate entrances and queues
- Limit the number of people in a confined area to enable adequate distancing at all times
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g., museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked
- Electronic tickets and playbills encouraged in place of paper

**Concessions:**
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

#### New Normal Risk

- Industry open under strict hygiene protocols. Service provider and customer must wear face coverings.
- Meticulous monitoring of symptoms
- Follow all employer guidelines outlined on page 7
- Both service provider and client wear face coverings
- Symptom checking of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
- Customers must have their symptoms checked before services are rendered
- Appointments scheduled with enough time allowed to disinfect all procedure surfaces between services

**Concessions:**
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

---

**Personal Services (including barbers, cosmetologists, body artists, nail technicians, tanning, etc.)**

- Extreme limitations of this industry
  - Follow all employer guidelines outlined on page 7
  - Business that rely on close human interaction encouraged not to stay open
  - Symptom checking in all interactions
  - Face coverings worn by both service provider and client

- Industry open under strict hygiene protocols. Service provider and customer must wear face coverings.
  - Meticulous monitoring of symptoms
    - Follow all employer guidelines outlined on page 7
    - Both service provider and client wear face coverings
    - Symptom checking of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
    - Customers must have their symptoms checked before services are rendered
    - Appointments scheduled with enough time allowed to disinfect all procedure surfaces between services

**Hospital Settings and Ambulatory Surgical Facilities**

Each hospital and ambulatory surgical center operating in Utah shall follow the protocols developed by the Utah Hospital Association in consultation with the Utah Department of Health, titled "Utah Hospital Roadmap for Resuming Elective Procedures 2.0".

**Non-hospital Setting, including Dentistry**

Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

General Guidelines for Employers

Best Practices for Employers

- Those who are, or work with, high-risk populations, should undergo daily screening/symptom monitoring, and be tested if they begin to experience COVID-19 symptoms. High-risk populations should take extra precautions to avoid close contact with multiple people
- Use online conferencing, email, or telephone in place of in-person meetings, even when people are in the same building
- Employees and customers should not congregate in groups; if your business involves a waiting area, customers should wait outside or in their cars
- Encourage contactless pay options if possible; otherwise immediately disinfect transaction equipment
- Make regular announcements to remind employees and customers to follow distancing guidelines. Use floor markings to mark appropriate physical distance where appropriate
- Encourage digital files rather than paper formats (e.g. documentation, invoices, inspections, forms, agendas)
- Consider what reserve supplies may be necessary to obtain (e.g., cleaning supplies, gloves or other protective equipment)
- Consider the possibility of interruptions to water or power that might force closure
- Establish and maintain open dialogue with local communities, including key vendors and suppliers, exploring contingencies and sharing appropriate decisions about foodservice, transportation, and other services
- Identify a workplace coordinator who will be responsible for COVID-19 issues and their impact in the workplace
- If relevant, update emergency communication plan with key contacts and backups, chain of communications, and processes for tracking and communicating; share the response plan with employees and communicate expectations
- Ensure every employee’s contact information and emergency contact details are up to date; ensure a plan is in place to be tested if they have COVID-19 issues and their impact in the workplace
- Educate workforce about the threat of the COVID-19 pandemic, what the business is doing, and what they should do to protect themselves and their families
- Prepare for absenteeism—not only sick employees will stay home; others may need to care for the sick or children if schools close; those employees should notify their supervisors
- Provide signage at each public entrance to inform all employees and customers that they should:
  - Avoid entering if they have a fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, muscle aches and pains, sudden changes in smell or taste, or feel generally unwell
  - Maintain a minimum 6-foot distance
  - Sneeze/cough into cloth, tissue, elbow or sleeve (not hands)
  - Avoid hand shaking or unnecessary physical contact
  - Wash hands often, and for at least 20 seconds
  - Wear face coverings

Cleaning & Hygiene Guidelines for Employers

- Promote etiquette for coughing, sneezing, and handwashing; avoid touching face, especially eyes, nose, and mouth; place posters that encourage hand and respiratory hygiene
- Face coverings should be worn by employees and patrons, especially when difficult or impossible to maintain 6-foot distance
- Ensure adequate air circulation and post tips on how to stop the spread of germs
- When possible, discourage sharing of work tools and equipment
- Make a list of high-touch surfaces requiring routine disinfecting and perform routine environmental cleaning (e.g., elevator buttons, workstations, countertops, handrails, doorknobs, breakrooms, bathrooms, common areas), either twice a day or after each use. Keep a logbook of cleaning regimen. Those cleaning should:
  - Wear gloves
  - Prior to disinfecting, clean surfaces with soap and water if soiled
  - Use EPA-approved disinfectant, industrial cleaner, diluted bleach, or alcohol solutions
- Provide disposable disinfecting wipes for employee use on high-touch surfaces; provide no-touch trash bins
- Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder items that have come in contact with COVID-19 separately
- Make hand sanitizer, soap and water, or effective disinfectant readily available. Provide pop-up handwashing stations or facilities where necessary (e.g. open houses, construction sites)
- Personal Protection Equipment (PPE) should not be shared and should be disposed of properly
- After using gloves, employees should wash their hands

Employers Monitoring Symptoms

- Employees who are sick or who appear to have COVID-19 symptoms should be separated from other employees/customers immediately and sent home; immediately clean and disinfect areas the sick employee visited
- Train managers/leadership to spot symptoms of COVID-19 and to be clear on relevant protocols
- Monitor employee symptoms, especially fever (100.4 degrees Fahrenheit/38 degrees Celsius, or above). If employees take simple medications such as acetaminophen, ibuprofen, or aspirin, they should take temperature beforehand
- Do not allow employees to come to work if they feel sick; create or maintain non-punitive leave policies so employees do not feel pressured to come to work if they are sick. Remind employees to report any illness to a manager, especially if sick with fever, cough, trouble breathing, sore throat, muscle aches and pains, sudden changes in smell or taste
- If an employee is confirmed COVID-19 positive, employers should inform close contact employees while maintaining confidentiality; close contact employees should self-monitor for symptoms for 14 days

 Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains

Page 15 | Version 4.0
Operational Practice

- Limit tables to groups of 10, preferably members of the same household
- Groups of patrons at a table must maintain a distance of 6 feet from patrons of other parties at all times. Either move tables or mark off tables not to be used
- In waiting areas, a 6-foot distance must be maintained between parties, whether indoor or outdoor
- Maintain signage to remind individuals from separate parties to stand at least 6 feet apart; waiting area has floor markers to indicate proper spacing
- Hosts preferably open doors for customers and guide them to their seats to prevent traffic or congregating; hand sanitizer available at door
- Recommendation that upon entry, hosts point guests to signage that includes the following information:
  - Outlines symptoms\(^{10}\) and encourages that if the patron, or someone they live with, has experienced COVID-19 symptoms, to please order takeout instead
  - Checklist for high-risk individuals\(^{11}\) to order takeout/delivery instead of dining in for the protection of that individual
- Manager checks each employee for symptoms before every shift with temperatures taken and asks if any member of the employee’s household has tested positive for COVID-19 in the past 14 days. Log must be kept and available for inspection by the local health officer
- Staff must wear face coverings at all times and perform hand hygiene between interactions with each table
- Cups, lids, napkins and straws must be handed directly to customers by staff
- Do not place utensils on table until patron is seated
- Encourage contactless and non-signature payment; when not possible, card and payment stations must be sanitized after each use. Staff must sanitize hands between handling payment options and food/containers
- Staff avoid touching items that have been placed on the table (menus, plates, utensils, pens, cups, etc.). The table will be cleared by a dedicated staff member once all guests have left
- Dedicated staff member sanitizes the area occupied by customers upon departure including tables, menus, pens, salt and pepper shakers, etc. Consider use of disposable items if necessary
- The restaurant may not operate if PPE, EPA-approved disinfectants and sanitizers, soap, and other necessary cleaning supplies are not available; sanitizer is effective against COVID-19. Chlorine (bleach) at 100-200 ppm is recommended
- Hand sanitizer must be available immediately adjacent to bathrooms
- Close restaurant for cleaning and disinfecting in the morning, afternoon, and evening. Cleaning and disinfecting includes all tables, chairs, door handles, floors, bathrooms, and any high-touch surfaces
- Buffet and self-serve restaurants will provide servers who will serve the meals from buffet to limit exposure. Patrons will not be allowed within 6 feet of the food serving area
- Stagger workstations so employees are not facing one another and are 6 feet apart
- To-go boxes, pizza boxes, paper cups, and any other paper product that touches food must be treated as food
- Staff must use gloves when handling ready-to-eat foods (including ice). Gloves are not required when handling foods that have yet to be cooked
- Indoor playgrounds in restaurants remain closed

\(^{10}\) Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains

\(^{11}\) High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease
